Summary

Profile

I'm an aspiring software developer with a strong foundation in computer science and software engineering, currently in my third year of a bachelor's program at Southern New Hampshire University. I'm passionate about coding and continuously expanding my skill set through both formal education and self-teaching. With experience in programming languages such as C#, C++, Java, Python, and HTML, I'm eager to contribute to innovative projects and grow within a dynamic team. I'm seeking an opportunity to leverage my technical skills in a software development role.

Technical Skills

Programming Languages: C#, C++, Java, Python, JavaScript, HTML5, SQL

Frameworks & Tools: Unity, Git, MySQL, Maven

Software Development: Agile methodologies, SDLC, Unit testing, Game development

Data Structures: Proficient in analysis and application of data structures

Technologies: GitHub, Microsoft Word, Excel, PowerPoint, Adobe Photoshop
